

Tungsten e-Invoicing

Jan 2021

Benefits

- ✓ **Instant invoice validation** → Get notified of errors earlier, resulting in fewer invoice exceptions
- ✓ **Expedited payment processing** → no more manual checking means we can process your payments more quickly when due from the date of receipt
- ✓ **Global tax compliance** → An e-invoice is a digitally-signed tax document that can be used to reclaim VAT, unlike a PDF
- ✓ **Convert POs into invoices** → Receive purchase orders and convert them into invoices at the click of a button (Web Form suppliers)
- ✓ **Check invoice status** → Track the status of your invoice and know when you were paid or will get paid (Supplier Self Service will be activated soon)

Steps

If you are an Upfield supplier based in **Europe, US, Canada, Australia** and transact with an Upfield entity present in these regions, then you should register for electronic invoicing via the link below. If you do a cross-border transaction, then you should submit your invoice via email/post – click [here](#) to know where to send your invoice.

Register

Visit [Tungsten Network](#), register your entity and choose how you would like to transact – Integration or Web Form (if you choose Integration, Tungsten implementation team will connect with you)

Connect

Find the right [Upfield Entity](#) that you will transact with and request a connection. This will send an approval request to Upfield Tungsten administration to review and approve

Transact

Once approved, you're ready to transact with Upfield.

You will also be able to see Purchase Orders issued to your entity by Upfield and see the status of your submitted invoices too.

FAQs and Support

Q: For login or registration issues

A: Contact [Tungsten Support](#)

Q: To request an additional connection with a Upfield legal entity (account on Tungsten)
